

Information regarding membership fees in Energyda Volley for 2020/2021

After another great year in 2019/2020 with many happy and pleasant moments together, although the season abruptly came to an end, we now look forward to a successful 2020/2021. To realize our activities in a continuing good way, we encourage that as many as possible will be members of our association. By paying an annual membership fee to the association, you give the support to the association's activities that is required, and by this we can look forward to as many happy and pleasant moments together during 2020/2021.

For 2020/2021 we continue with the package Youth Duo, where one youth player and one parent become members through this package. The fee for Volleybompa is a different one per participant. For those who are only acting as a coach and do not exercise themselves or are part of the board the fee is also a different one.
